EXPERIENT

RESTful APIs and managing various databases

Create a website ecommerce

build an android/ios app

MY PROJECT

web ecommerce

first project web app with
php/index/css/javscipt/sql

Project time
1 mouth

dashboard Restful api With Nextjs

Database link website give ecommert and
Manage customer trading information

with nextjs tailwind
The second project was a challenge to learn how to work with the API. and
learn to use the framework

Project time
1-2 mouth

conect database mongo/mysql

andiord/ios app whith fluterapp

Project time
3 week

UI emcomert andoid/ios with dart

Project 3: Let's move forward and write an app on android|ios with flutter.

And the next project is expected to be related to hardware and iot devices.

game develop

Advice about me
SKILLS THAT ARE BEING LEARNED AND PRACTICED NOW
